

Baureihe P4 . Series P4

SMC für wirtschaftliches Design und Qualität

Die Baureihe P4 steht für hohe Wirtschaftlichkeit dank der Herstellung im Heißpressverfahren: Schutzkästen aus glasfaserverstärktem Sheet Moulding Compound. Einsatzgebiete sind bspw. Basisapplikationen wie Transmitterschutz oder Probenahmesysteme.

Maximale Wirtschaftlichkeit durch einschalige Bauweise

Polyester SMC mit einer Materialstärke von ca. 4 mm mit Wärmedurchgang von $5 \text{ W/m}^2\text{K}$. Isolierung mit PU-Schaum auf Anfrage.

SMC for Cost Efficiency and Quality

Series P4 stands for high cost efficiency due to a hot press manufacturing process: The protection boxes are made of a fiber-reinforced sheet moulding compound. Application areas include transmitter protection and sampling systems.

Maximum Cost Efficiency due to Single-Layer Design

Polyester SMC with a thickness of approx. 4 mm with heat transfer of $5 \text{ W/m}^2\text{K}$. Insulation with PU foam on request.
